Dear Industrial Partner,

The 10th International Conference devoted to **New Developments in Photodetection** (NDIP) will be held from **July 6th to July 10th 2026 in Troyes, France**.

This year marks the 30th anniversary of our conference! We will propose a small exhibition to show your products change in this time.

The conference explores the latest developments in **Photodetection techniques and systems for High Energy Physics, Astrophysics, Medical and Industrial applications**. The program includes detector issues (PMTs, solid state detectors, photodetectors, sensing media, etc.) and system aspects (pixel arrays, electronics, data processing, etc.).

The Conference provides a forum for the establishment and maintenance of contacts with 200 physicists, engineers and decision makers from more than **20 countries**.

The Conference will take place in the **Aube Conference Center**. It integrates facilities for the industrial program in an exhibition area. Coffee breaks will be held within the exhibition area to maximize the interaction with participants.
